STEP 2 FRAME SECTION MEASURE

FRAME MEASURED BY _____.

SIGNATURE _____.

DATE _____.

STEP 1 REVEAL MEASURE

When measuring be sure to measure frame to frame (reveal) in the 5 position marked with mm on the drawing to the left. 3x horizontal 2x vertical from finished floor to reveal. We will do deductions from this when ordering the door.

There is also 2x drawings of typical frame profiles to the far left. Please complete measurements to the areas marked. This ensures we get the correct thickness door and fire rating.

Measure finished floor to reveal.
_____ mm
